**Subject:** Microsoft Settlement

Sirs:

I completely support the settlement with Microsoft, Inc.; but would have liked to see Microsoft completely exonerated without having to pay out one cent in the settlement. Market forces, not the Judicial System should be the sole determiner of what products are put on the market place; and the Democrats' consistent attempts to compromise this system is as Communistic as Marx or Lenin themselves. If ever another entrepreneur can make a better product than Microsoft then let that product come to the forefront, and we will purchase it.

Thank You,

David Tucker  
Tellico Plains, TN
